Arizona Autism Network of the West Valley together with TEAM 4 Kids and the Autism Academy are hosting a very special and unique event for those with autism and other special needs. Our 3rd Annual Sensitive Santa Event provides a supportive environment which eliminates bright lights and loud noises that can trigger sensory sensitivities for someone on the spectrum. Each child will be able to get a FREE photo as well as one on one time with the holiday icon in a private area that is modestly decorated. Parents have expectations about different key events in their child's life they want to share with their children. We at AZANOW feel just because a child is on the autism spectrum or has a special need, it doesn't mean they should be denied this experience. We are hoping to make this a unique and memorable experience for the entire family.

***Sponsor Registration Opens October 1st  
Santa Visit Registration Starts November 1st***
